From an expert. For more than one good reason.

With DUSCHOLUX, you've made the right choice. We develop and produce bath and shower solutions for you with reliable Swiss quality. This means that our products exceed your highest expectations when it comes to aesthetics, durability and sustainability – with international success.

For more than 50 years, DUSCHOLUX has been designing bathrooms that are right up to date and fulfil your every desire. No matter whether you want to re-charge your batteries, relax for a while or just use it every day. No matter how big or small your room or how unusual your idea – your request is our only priority.

DUSCHOLUX CareTec® Pro

Unique Glasses finishing.

Economical, environmentally friendly, easy to clean. DUSCHOLUX CareTec® Pro creates tangible added value in the bathroom with innovative technology. The permanently dirt-repellent surface considerably reduces the amount of cleaning required and eliminates the need to dry the Glasses after showering. Depending on the hardness of the water, cleaning the shower walls with a microfibre cloth without chemicals every one to two weeks is sufficient. This saves time and money, protects health and helps the environment.

New formulation – extended guarantee:

- 5-year guarantee on ease of cleaning
- 10-year protection against Glasses corrosion
- Standard for Collection 3C, Air and Bella Vita

Video with 1:1 comparison to an uncoated shower wall at www.duscholux.com/caretecpro

Simply a good feeling.

Saves time.
The drip-off effect eliminates the need to dry the Glasses after showering. Depending on the hardness of the water, cleaning the shower wall with a microfibre cloth every one to two weeks is sufficient.

Saves on cleaning agents.
DUSCHOLUX CareTec® Pro removes limescale and dirt from the exposed surface. This makes cleaning easy and without the use of limescale removers.

It's environmentally friendly.
Reduces the amount of chemicals released into the air you breathe and the water cycle. In addition, the reduction in time and effort required for cleaning means water savings that save hundreds of liters of drinking water every year.

It's sustainable.
The surface treatment permanently protects the shower wall from Glasses corrosion and makes it particularly durable.

DUSCHOLUX CareTec® Pro. Consistently concentrating on the essentials.

Characteristics	CareTec	CareTec Pro
Easy to clean	●	●
Cleaning with a microfibre cloth		●
Environment-friendly	●	●
Sustainable	●	●
Guarantee for easy to clean effect*		5 Ja Years hre
Guarantee against glass corrosion		10 Years

We offer our glass finishing in two quality levels. The following descriptions illustrate the differences between the two technologies.

DUSCHOLUX CareTec® Pro
The beading effect of DUSCHOLUX CareTec® Pro makes it unnecessary to remove water from the glass after showering. It is sufficient to clean the glass once a week with a microfiber cloth. The regular use of cleaning agents can be dispensed. This easy-to-clean effect* is covered by a 5-year guarantee. Our guarantee against glass corrosion covers 10 years.

DUSCHOLUX CareTec®
DUSCHOLUX CareTec® makes cleaning the glass easier thanks to its water-repellent properties. The limescale residues after wiping can be removed much more easily. This reduces the use of cleaning agents.

* The industry standard is defined as "easy to clean" with a static contact angle of at least 70 degrees. The greater the angle, the easier the water rolls off. DUSCHOLUX CareTec® Pro has a standard contact angle of > 100 degrees.

Foiling and screen printing

On ESG safety Glasses

One problem - two solutions: Foiling and screen printing as privacy protection for front walls or adjacent bathroom furniture. Applied directly to the Glasses, film or screen printing conceals all disturbing influences when looking out of the shower. There are various plain colours to choose from.

Features of foiling

- Very short delivery time
- Also possible on frosted Glasses
- Can be removed without residue
- Also suitable for curved Glasses
- Furthermore, 85 custom colours and Satinato available
- Shape: Rectangles, trapezoids or shapes composed of several rectangles/trapezoids
- Foiling must extend to the bottom edge of the Glasses
- Also compatible with CareTec Pro
- Maximum foiling dimensions: 1230 mm x 5000 mm

Features of screen printing

- 3 standard colours: White Glossy (RAL 9010), Black (RAL9005) and Satinato (etched Glasses look)
- Almost every shade available as a custom colour
- Any desired position; alternatively full-surface application possible
- Also compatible with CareTec Pro
- Maximum printing area dimensions: 2400 mm x 4200 mm

Digital printing

On ESG safety Glasses

Our shower walls are now also available with a custom motif on the Glasses. Whether it's a favourite high-resolution photo or a graphic design of your choice – the result is a digital print in brilliant photo quality! Shower walls are increasingly becoming personalised showpieces.

Features

- Print quality in brilliant colours
- Your own images in top quality on Glasses
- Available in opaque (with white back) or slightly transparent (motif is mirror-inverted on the back)
- Standard printing up to the edge, full-surface printing or partial printing possible
- External print on shiny ESG safety Glasses
- Printed side durable and fully resistant to cleaning
- Production after checking the image template and your approval
- Max. Glasses size: 2000 x 3000 mm

Gluing instead of drilling

Put an end to drilling damage such as splintered tiles or faulty seals: Our adhesive technology allows assembly without dirt and noise. Already used in other industries for a long time, this technology is now also finding its way into the sanitary sector. Whether Glasses on Glasses, crossbars or profiles - gluing is the alternative to drilling and screwing for all walls that are friction-resistant, load-bearing, dimensionally stable and free of adhesion-reducing substances.

Features

- Wall mounting without dirt and noise
- No time-consuming drilling on hard wall tiles - no risk of cracking.
- No damage to seals (DIN 18534)
- Ideal for rented flats or renovations during ongoing operation
- Rapid completion thanks to short drying time
- Suitable for example for assembly on tiles and PanElle wall panelling

Unsuitable Substrate Material

A technically unsuitable substrate means: low shear strength, brittle or peeling coatings, or components that reduce adhesion. For example, in cases such as:

Colour of tiles

Wood

The adhesive technology for wall profiles and crossbars is available for the following shower walls:

- Collection 3C Swing door
- Collection 2 Swing door
- Bella Vita 3 Plus Sliding door
- Bella Vita 3 Sliding door
- Bella Vita 3 Swing and pivot folding door
- Allegra 2 Swing door

01

Where screws were used in the past, the wall profile is now glued.

02

Crossbars can now simply be glued. This noticeably simplifies overhead assembly.

03

Bella Vita 3 Plus sliding door attached with gluing technology.

04

Glued wall mounting for the Bella Vita 3 sliding door.

Overview

Walk-in Solutions

Shower walls

Invisible, mechanical fixing

Flush-mounted wall profile. This solution with lug for tiling offers an invisible, mechanical fixing. This makes it possible, for example, to mount directly the edge of the wall.

Invisible, non-mechanical fastening

Glued with glass anchors. Instead of mechanical fixing, the glass is secured to the wall and floor using concealed glass anchors and silicone joints in a choice of colors on the wall and on the floor. This has the advantage that neither drilling or screws are necessary.

Visible, mechanical fixing

Surface-mounted wall profile. The Glasses is firmly connected to the wall by means of an attractive wall profile. Installation directly on the wall edge is not possible with this solution.

Surface-mounted wall bracket. Elegant alternative to fixing with a profile. In contrast to the wall profile, a large part of the Glasses edge remains visible with this solution and the design becomes lighter.

The exclusive feel-good oasis, the architectural masterpiece, the small bathroom, guest bathroom or the standard for rental properties. In our product worlds, you'll find the perfect option for every desire, every bathroom layout and every budget. And the special touch is that DUSCHOLUX will make all your ideas a reality.

Meeting your every demand.

Your needs are just as unique as your projects. We can provide versatile solutions for all requirements using our modular concept, which is based on the principle of "Good-Better-Best". In this way, a product variant from our basic segment "C" provides the same level of satisfaction as the solution from the mid-range segment or the premium segment "Plus". They only differ in terms of features and price. No matter what variant you opt for: With all DUSCHOLUX products, quality, innovation and easy-of-use are guaranteed.

7 worlds.
365 days to
discover them.

Viva

Refined style icon.
Brings life to your bathroom.

The Viva product world embodies innovation. Masterful workmanship, clear lines of sight and invisible functionality speak for themselves. When paired with your flair for first-class bathroom design, you give this shower wall its own special personality. Viva represents class in its purest form.

Viva Swing door

Colourful accents in unison with the rear wall.

For those who prefer elegant swing doors, our new Viva shower wall offers plenty of room for individuality. You can even pair the glass-effect surface of the hinges with the matching PanElle rear wall. In addition to the popular Chrome Glossy variant, there is also a choice of White Glossy, Black Glossy, Black Matt and Stainless Steel Finish. Those who prefer a more natural look can choose from three real wood decorative inlays. With Viva, anything is possible!

Features

- Frameless shower wall with 8 mm glass thickness
- Fitting colours of Chrome Glossy, White Glossy, Black Glossy, Black Matt and Stainless Steel Finish
- DUSCHOLUX CareTec® Proglass finishing included
- Fittings with PanElle in glass look and customisable with real wood decorative inlay
- Internally flush surfaces for easy cleaning
- Swing doors open inwards and outwards
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Optional wall profiles for an extended adjustment range
- Shower wall height up to 2200 mm

01

The slim and extremely flat hinge is flush on the inside and particularly easy to clean – with a practical lift-and-lower mechanism as standard.

02

Individuality down to the last detail: hinges and handles are also available in glass-effect PanElle.

03

Viva means freedom – with colours and installation versions too.

New, better, Viva: The Viva swing door is the perfect blend of design, functionality and individuality. Add your own specific personal style to your bathroom using striking touches of colour and visual elegance. DUSCHOLUX CareTec® Pro glass finishing is included in the price. This is where functionality meets innovation. Making the Viva swing door a genuine style icon by way of attractive design.

- 01**
The swing door that opens both inwards and outwards guarantees flexible access. Installed here with a wall connection profile.
- 02**
A new addition to the colour range: Black fittings and handles, providing even more design possibilities.
- 03**
PanElle can be integrated into the profile and glass holder as a feature. For example, in Basalt Grey.
- 04**
The optional, narrow wall profile provides an additional range of adjustment as compensation for wall angles.

Walk-in solution with 8 mm glass thickness

With the Viva Walk-in, a bonded Walk-in solution with 8 mm glass is now also available – in different versions and widths too.

01

02

03

01
Bonded Viva Walk-in solution with cross-bar and 8 mm glass thickness.

02
Inward-opening and outward-opening swing door with real wood decorative inlay in walnut and the new glass type 821 Terra with CareTec® Pro

03
A wide range of possible combinations. For example, Black Matt in combination with Stainless Steel Finish.

04
The new real wood decorative inlays are available as an option for both sliding and swing doors and are included in the basic price.

04

Viva Swing door

Special colours

Merkmale

- Special colours to match fittings from well-known manufacturers
- Galvanically finished fittings
- Profiles painted with matching effect paint
- Available for all installations fixed with wall brackets
- Delivery time approx. 8-10 weeks
- When ordering, always state manufacturer and exact colour description with code specification
- Due to different surface treatments or materials, colour differences in colour between fittings and profiles.

Gessi 726 Warm Bronze Brushed PVD

Laufen Rosegold PVD

Viva fixed and side panels

Wall connections

Wall bracket external

Discreet mounting on the outside of the shower wall.

Wall bracket

Two brackets per shower wall - discreetly fitted in glass cutout.

Flush-mounted wall profile

Wall profile with lug for tiling for invisible mechanical installation.

Surface-mounted wall profile

Visible wall profile for mechanical installation with eye-catcher guarantee.

Glued

Directly glued and secured with glass anchors to the wall and secured to the floor.

Before – the wish. After – the dream bathroom.

At the start of the story of a new bathroom there is an idea, a need, a vision. Whatever the reason, we'll finish the story together with you. We're happy to help you with reliable expertise, an efficient process, countless special solutions and our own installation team. After all, we want to know that your dream has become a reality.

Collection

The one and only.
As flexible as you need.

The frameless product world Collection focuses on what's important: exceptional convenience, a simple look and no effort. Tailor-made frameless shower walls give you a unique shower experience in any room layout. With almost limitless possibilities for installation and refined details, Collection lets your creativity run wild. Lacking in profile? Collection is anything but that.

01
Collection 3 is also a visual highlight as a corner entry solution featuring the Carbon glass variant.

02
As standard, the striking handle is supplied in Chrome Glossy and is flush with the inside for easy cleaning.

03
Collection 3 simplifies versatile solutions. Shown here as a niche solution with swing door and side panel in Front and a shower floor Fjord in Black Galaxy.

Collection 3C Swing door

Transparency without profiles.

The Collection 3C frameless shower wall leaves plenty of scope for individual design. This is because the profile-free glass surfaces provide elegant transparency that can enhance any room. The inside surfaces are flush, making Collection 3C particularly easy to clean.

Collection 3C features

- Frameless shower wall with 8 mm glass thickness
- Fitting colour Chrome
- Including DUSCHOLUX CareTec® Pro glass finishing
- Screw-in flush fittings
- Swing doors open inwards and outwards
- Selection of handles and crossbars
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Shower wall height up to 2200 mm
- Screwed flush fittings
- Additional installation options thanks to new glass-glass hinge

Excellent design, attractive price.

Finished with DUSCHOLUX CareTec® Pro and a smooth internal design, Collection 3C is particularly easy to clean. The hinges are screw-fastened, offer various adjustment options and additional designs and can also be used for mirrored glass. DUSCHOLUX now offers the elegant Collection look in an even wider range – so that no wish is left unfulfilled.

01
When it comes to installation and fitting, almost anything is possible: custom sizes, bevels and glass cut-outs make this range work for every room layout.

02
The new glass-to-glass hinge of Collection 3C rounds off the installation options.

03
Small detail, big impact: the smooth internal screw-fixed hinges combined with the DUSCHOLUX CareTec® Pro glass finishing make Collection 3C particularly easy to clean.

04
With the glass-glass hinge, Collection 3C offers new installation options. Collection 3C impresses with its aesthetically pleasing appearance and is easy to clean thanks to its flush inner surfaces.

05
A shower with integrated bench for sitting? A custom cut-out makes even the most unusual ideas possible.

Collection 3C Sliding door

Aesthetically pleasing and elegant.

As a transparent shower wall with sliding doors, Collection 3 stands out due to its ability to be adapted to the specific room layout. Whether in niches, as a corner installation, or Walk-in variant, the frameless solution comes without an upper guide profile, giving a light, well-lit look and feel. The sleek, lateral wall profiles in Platinum Silver emphasise the transparent design and provide modern visual highlights.

Collection 3C features

- Frameless shower wall with 8 mm glass thickness
- Profile colours Platinum Silver Glossy, Silver Matt and Black Matt
- Including DUSCHOLUX CareTec® Pro glass finishing
- Slim magnetic closure made of aluminium
- Shower wall height up to 2100 mm

- 01**
Collection 3C with side panel: a stable and spacious solution that is bathed in light, for straightforward installation situations. Also available in non-standard dimensions.
- 02**
The Walk-in version in Black can be shoved together in order to save space.
- 03**
Roller guide at the top with Platinum Silver Glossy design.
- 04**
Minimalistic, transparent design: Handle matches the Black Matt profile colour.
- 05**
Niche installation in Black Matt profile colour as a transparent sliding door solution.

01
Plenty of space under a sloped ceiling – Collection 2, shown here with oval hinges and fittings. It also fits in unusual room layout.

02
The structural aesthetics of the corner variant are clear and striking.

03
The matching hinges and handles have a uniform design and a discrete style.

04
Collection 2 as corner installation with swing door and side panel. The integrated lift-and-lower mechanism makes it easy to open and close the door.

Collection 2

Classical design with a wide range of variants.

Collection 2 stands out due to its clear and harmonious structural aesthetics. With its wide range of variants, this DUSCHOLUX shower wall can be installed in a virtually unlimited number of different ways. With the exquisite, traditional look of the handles and hinges, you will always be making the right choice.

Features

- Frameless shower wall
- Glass thickness 8 mm (fixed parts), 6 mm (door parts)
- Fitting colours Platinum Silver Glossy and Chrome Matt
- Swing doors open inwards and outwards
- Lift-and-lower mechanism for easy opening and closing
- Fittings and handles rectangular or oval
- Shower wall height up to 2100 mm

Saving space for the bathtub.

Collection 2 is a shower wall that can swing out against the wall to save space. As a frameless, one to three-leaf panel overbath screen, it meets the highest design requirements.

Features

- One- to three-panelled folding shower wall for the bathtub
- Shower wall as a Walk-in solution with wall crossbar or ceiling support
- Fitting colours Platinum Silver Glossy and Chrome Matt
- 360° hinge for a wide range of movement
- Fittings corner or oval
- Height up to 1800 mm for the bathtub and up to 2100 mm as a shower wall

01 Two-piece Collection 2 with rectangular 360° hinges. The hinges allow the door elements to swing inwards or outwards with ease.

Walk-in with no limits

Free-standing shower panels with spacious access, free of any obstacles, enhance any modern bathroom. The Collection 2 offers limitless showering pleasure in arbitrary shapes and sizes – fastened with ceiling support or wall crossbar to suit the room configuration.

Stella

Made to fit precisely.
For the joy of detail.

The frameless Stella product world fits into every situation: Different shoring situations made to measure anticipate the desire for uniqueness. Stella stands for custom-fit individual pieces with a claim to design and functionality.

Stella

- 01 Pivot door with fixed panels for corner entry.
- 02 Flat handle with rounded flanks.
- 03 Walk-in solution with side panel 90° installation.
- 04 Pivot door with fixed panel and side panel in line in niche.

Stella 1C Pivot door

Reduced to the max.

Individual rooms require individual shower enclosures. Stella 1C is a frameless hinged door with 8 mm glass. The geometrically shaped hinges in polished chrome guarantee thanks to lift- and lowering mechanism easy opening and closing . Screwed flush with the glass, the hinges also promise a particularly easy way to clean.

- Merkmale**
- Frameless shower wall
 - Glasses thickness 8 mm
 - Chrome Glossy fitting colour
 - Lift-and-lower mechanism makes it easy to open and close the door
 - Smooth internal surfaces for easy cleaning
 - Shower wall height up to 2100 mm

Air

Transparent trendsetter.
More room for ideas.

The frameless product world Air pays homage to true freedom of design and a sensuality that creates a great deal of personality from this minimalist style. The free-standing shower walls work particularly well in spacious and accessible Walk-in solutions. The large number of colour options enables you to choose freely between a carefully understated style and a sophisticated highlight. There's more than love in the Air!

Air 3

Maximum transparency.

No drilling or screws. Our glued Walk-in variant, the Air 3, is mounted on the wall using a concealed glass anchor. Only a few, sophisticated components are required to ensure the highest possible level of transparency and a straightforward assembly process in only a single step. A discrete, coloured silicone joint along the floor-wall interfaces suffices.

Features

- Frameless shower wall with 10 mm glass thickness
- Spacious walk-in solution
- Suitable for mounting on tiles and PanElle wall panelling
- Including DUSCHOLUX CareTec® Pro glass finishing
- Profile-free for maximum transparency
- Safety thanks to concealed glass anchor
- Shower wall height up to 2200 mm

01
Not a profile in sight, yet a secure hold is guaranteed by glass anchors.

02
Absolute facility in the absence of profiles. The free-standing 10 mm glass is available in different colours of glass.

Air 2

Free-standing and unique.

With no visible profiles, Air 2 offers a pure, clear appearance for modern bathroom architecture. Glass heights up to 2200 mm, custom sizes and different glass designs leave plenty of room for individuality.

- Air 2 features**
- Frameless shower wall with 10 mm glass thickness
 - Colours Silver Matt, Silver Glossy, Stainless Steel Finish and Black
 - Wall profile also available in a flush-mounted version
 - Including DUSCHOLUX CareTec® Pro glass finishing
 - Four new eye-catching glass colours
 - Suitable for both tiled shower floors and shower walls
 - Shower wall height up to 2200 mm

01
An interesting accent in modern bathroom architecture: Air 2 in Polar glass with satin finish which fades as it rises.

02
Barely visible profiles with Air 2. Available as a surface-mounted or flush-mounted solution.

03
Also available as a room height version for bath tubs.

Bella Vita

Bestseller with style.
And meaning for life.

The reduced-frame product world Bella Vita gives you the freedom to implement any design idea. With a wide variety of versions, well-thought-out functions, spacious dimensions and high-quality materials. The various door and glass options give a small bathroom just as much class as a large one – with a masterfully understated look.

Bella Vita makes life particularly beautiful.

01

Big in small niches too: Bella Vita 3 can be easily integrated anywhere to save space.

02

A nice touch: the aesthetic profiles in a variety of colours cover all screw connections and mountings. Here in Black Matt and Stainless Steel Finish.

03

Bella Vita 3 Plus offers ceiling-height solutions, even with Partial Fine Satin glass.

Bella Vita 3 Sliding door

Transparent with a touch of colour.

Winner of the iF product design award, Bella Vita has been setting standards in functionality and adaptability for many years. This is why we are constantly developing this product world further. As a further development, with Bella Vita 3 Plus DUSCHOLUX offers you additional room height solutions that will win people over with a more transparent design without wall profiles.

Bella Vita 3 features

- Reduced-frame shower wall
- Glass thickness 6 mm
- Profile colours Silver Matt, Silver Glossy, Black Matt and Stainless Steel Finish
- DUSCHOLUX CareTec® Pro glass finishing included
- Slim magnetic closure made of aluminium
- Soft close function for smooth opening and closing
- Push & Clean function for easy cleaning
- Shower wall height up to 2100 mm

Bella Vita 3 Plus added value

- Glass thickness 8 mm (stationary parts), 6 mm (door parts)
- No wall profile for an even more transparent design
- Floor-to-ceiling version available

03

Smooth-running with aesthetically pleasing profiles.

No matter whether you opt for the linear or round version: The innovative glass guidance on large rollers, optional self-closing with soft-close effect and the high-quality materials ensure quiet running. The aesthetically pleasing profiles are particularly eye-catching. They cover all fittings and hangers and are also available in the trendy colours Black Matt and Stainless Steel Finish.

01

Bella Vita 3 Plus stands out due to its aesthetic, transparent design achieved by forgoing wall profiles.

02

The sliding doors can be cleaned effortlessly using the practical Push & Clean function. The sliding doors can be pivoted outwards by pressing on them gently from the outside.

03

The glass hangers are integrated into the profile. When the Bella Vita 3 Plus is installed in a corner, the Chrome cover cap becomes an eye-catching highlight.

04

As a quarter circle shower with wall profiles, the Bella Vita 3 Round shows its adaptability. Optimum use of space with a timeless design.

01

A distinct advantage.

With the transparent splash guard, a tub can be quickly transformed into a spacious shower. This is made particularly appealing by the smooth-running sliding doors of Bella Vita 3. Two or four-panelled variants are available. Bella Vita also features a wide range of Walk-in solutions. The two-panelled sliding doors are functionally superior to the traditional Walk-in versions.

02

01

Bella Vita 3 with single-piece sliding element in combination with side panel. The striking design shown here is the Black Matt variant.

02

The glass panel of the single-panelled sliding door is freely moveable with Bella Vita 3. This means that the fixtures are easily accessible and can be cleaned effortlessly.

03

Where screws used to be used, the wall profile can now also be glued.

03

Bella Vita 3 Swing and pivot folding door

Spacious or space-saving.

Every bathroom is different. That is why the Bella Vita 3 range offers additional door models for individual room requirements. Swing doors in numerous sizes and installation variants enable comfortable access to the shower area. Pivot folding doors are space-saving alternatives that still provide a large entry area.

Features

- Reduced-frame shower wall with 6 mm glass thickness
- Profile colours Silver Matt and Platinum Silver Glossy
- DUSCHOLUX CareTec® Pro glass finishing included
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Shower wall height up to 2000 mm

- 01**
- The perfect niche solution: Bella Vita 3 swing door, flexible in terms of width and height.
- 02**
- The swing door with side panel and the Fjord shower floor provides convenient access. The fixed panel with the Mirror glass design is a splash guard and full-body mirror in one.
- 03**
- Swing doors as corner entry with fixed panels. Easy to open and close thanks to the integrated lift-and-lower mechanism.

Generous entry.

Whenever a large amount of space needs to be won, Bella Vita 3's pivot folding doors are used. They provide a particularly generous entryway and can be folded completely against the wall. The new bow-shaped handle mounted horizontally facilitates easy control of the glass leaves.

01

02

01
As a pivot folding door with Silver Glossy profile and with bow handle in a horizontal position. Convenient use guaranteed. A miracle for small niches with optimum utilisation of space.

02
Corner entry with pivot folding door as a transparent solution. The doors fold open against the wall providing you with the greatest possible amount of entry space.

Allegra

Linear classic.
A welcome addition to any bathroom.

If you prefer to see the big picture, welcome to the Allegra product world. The entry-level series fits perfectly in any situation while staying discreetly in the background. The framed shower walls can be installed in a flash, so they pay for themselves, especially if you're building a property. Allegra – the classic for your bathroom.

Allegra 3 Sliding door

Comfortable and expressive.

Our Allegra with two-panelled sliding doors combines all the strengths of a classic with a modern, lighter look, since the innovative seal means that the overlapping of the glass is barely visible. This creates more transparency – and requires less of a profile. The simple swing out mechanism makes cleaning much easier.

Features

- Framed shower wall with 4 mm glass thickness
- Colour Silver Matt
- Two- and three-panelled sliding doors
- Doors open outwards for easy cleaning
- Shower wall height 1900 mm

- 01** Corner connector
- 02** Magnetic glass unhooking function and closed profiles for easy care
- 03** The two-panelled sliding door offers various design option.

Allegra 2 Swing door

Slim and versatile.

When designing the bathroom area, transparency and lightness are increasingly in the foreground. That is why we have further optimised the predecessor swing and pivot folding door. The result: A significant reduction in profile mass and even more flexibility during assembly. This is achieved by optimising the compensation of the slopes within the wall profile. Three attractive profile colours are available for you to choose from: Silver Matt, Silver Glossy, Black Matt can be combined with the two noble hinge colours Chrome Glossy and Black Matt.

Features

- Partly framed shower wall
- Glass thickness 6 mm
- Profile colours Silver Matt, Silver Glossy and Black Matt
- Lift-and-lower mechanism for easy opening and closing
- Width/bevel adjustment possible between 20 and 40 mm, depending on model
- Shower panel height up to 2100 mm
- Optional set for glued wall mounting available

- 01**
- A wide range of options for flexible designs. The new Allegra 2 swing door is available in numerous sizes and installation variants.
- 02**
- A welcome sight. A swing door as niche shoring in Silver Matt.
- 03**
- The bow handle is also available in Black Matt.

Filigree and yet flexible.

Thanks to slim aluminium profiles with an adjustment range of 20-40 mm, Allegra 2 offers more transparency in the bathroom and flexibility during assembly. Give your bathroom your own personal style with different profile colour accents. In addition to the standard sizes, we also offer custom-made products, of course. The Allegra 2 is available as a swing door as well as a pivot folding door.

01

01 Conveniently, the two-panelled pivot folding door folds open against the wall as necessary. As an option, the partially satinised glass provides the necessary privacy.

02 Symmetrical in appearance and generous at the entrance. The swing door as corner shoring comes up trumps with plenty of space.

02

Allegra

Space-saving and practical.

For the bathtub or shower area in a small bathroom. The new Allegra 2 pivot folding door fits into even the smallest corner or niche. Thanks to collapsible glass leaves, the Allegra 2 pivot folding door can be placed almost flush against walls, giving you more freedom of movement.

01
Pivot folding door on bathtub.

02
Despite its narrow dimensions, the wall profile offers a practical adjustment range for even more flexibility during installation.

03
Conveniently, the 2-panelled pivot folding door folds open against the wall as necessary.

Classic

Purposeful by Design.
A basic range focused on what
truly matters.

Crafted from solid materials, reduced to the essentials,
and designed for straightforward installation. Classic is
about function – with consistently short delivery times.
And yet, comfort is never compromised: a standard
lift-and-lower hinge and a 145 mm bar handle come
included. Classic – Simply practical.

Classic 3C Sliding Door

Simply fits.

Classic 3C is a fully framed shower enclosure with two- or three-part sliding doors. Thanks to its symmetrical design, it can be installed with either left or right-hand opening, offering maximum flexibility. A high degree of pre-assembly and a generous adjustment range ensure fast and straightforward installation on site. The choice of materials and quality workmanship guarantee long-lasting functionality and a timeless look.

Features

- Framed shower wall with Glass thickness of 4 mm (fixed parts), 5 mm (door parts)
- Silver Matt profile colour
- Two or three-part
- Large adjustment range of 50 mm
- Can be installed mirror-inverted for use as left or right version
- Magnetic Glass unhooking function for easy care
- Shower panel height 1900 mm

- 01

2-panelled, in recess
- 02

3-panelled, with side panel

- 01 corner entry, 3-panelled
- 02 Magnetic Glasss unhooking function for easy care
- 03 Chrome Glossy handle Outside view

Newly developed sliding door platform

The Classic 3C is based on a completely new platform design. Both the two- and three-panel sliding doors can be installed in a mirrored configuration, allowing for flexible left- or right-hand opening.

- 01** Corner entry with fixed parts and swing doors
- 02** 145 mm bar handle for easy handling
- 03** Pivot door in recess with fixed part
- 04** Corner entry with folding doors

Classic 3

Swing, pivot and folding door

There when you need it.

Classic 3 is a semi-framed shower enclosure with pivot or swing door functionality. With 16 installation options and an adjustment range of 20–30 mm each, it allows for fast ordering and implementation processes. A robust selection of materials, a standard profile color, and a 6 mm tempered safety glass option ensure a timeless look.

Features

- Partly framed shower wall
- Glass thickness 6 mm
- Silver Silk Gloss profile colour
- Chrome-plated attachments
- Lift-and-lower mechanism
- Width/slope compensation 20 mm – 30 mm
- Shower wall height 1928 mm – 1950 mm

PanElle

Straightforward alternative.
For a new atmosphere in the bathroom.

A completely new atmosphere in the bathroom, with absolutely no dirt, dust and laborious renovation work? No problem! With the ingenious PanElle wall panelling system, DUSCHOLUX offers a simple alternative that will give your bathroom a makeover without having to go through a full renovation. PanElle wall panelling panels are available in many colours and patterns or with personal photographic motifs. They are simply installed over the top of the existing base and can be easily adapted to the existing architecture thanks to the modular system. This is quick to install, impresses with its modern design and provides an astonishing new atmosphere.

PanElle Wall panelling

From outdated to astonishing.

Want to turn an outdated bathroom into a wellness oasis in no time at all without any laborious conversion work? And without noise, dirt and dust? It's never been so simple – with PanElle. PanElle wall panelling is available in various attractive colours, patterns and layouts. It can be adapted to the surroundings wonderfully well and, thanks to the joint-free assembly process, is incredibly easy to clean.

Features

- Wall panelling made of rigid foam panels with acrylic coating
- Panel thickness 6 mm or 11 mm
- 13 individual colours, 8 graphic samples, 5 design samples, 6 haptic samples and 4 natural stone tiles
- 195 RAL colours or personalised designs available using the photo printing process
- Joint, profile or invisible PanElle Click connections
- 100% moisture-resistant
- Scratch-resistant, impact-resistant, light-resistant
- Easy cleaning thanks to fewer joints
- Panel size up to 1500 x 2500 mm

PanElle Individual

Anything is possible.

PanElle is available in thirteen individual colours. In addition, you can choose from 195 RAL colours to create customised solutions. With such a huge range of options, it is possible to turn any room into a unique wellness bathroom with an individual touch. From the classy, traditional look right through to a trendy, modern appearance.

PanElle Photo printing

Boundless character.

Images selected from an image database or your own high-resolution photo motifs used as a large-scale wall design can turn rooms into unique bathing landscapes. They are simply printed onto PanElle panels using a glass effect. They can also be illuminated as an Enlight version on request and then mounted. So, if you've ever wanted to shower above the rooftops of New York City, you need only step into your bathroom.

01
Notice the difference. PanElle Haptics
White Diamonds opens up a new,
tactile dimension of experience.

PanElle Haptics

Feel the difference.

The new PanElles not only look good, they are also con-
vincing to the touch: PanElle Haptics plays with interesting
surface structures and thus creates surprising haptic
stimuli. You can find a sample at your DUSCHOLUX partner.
Feel the difference for yourself.

PanElle Objects

For greater flexibility.

PanElle Objects impress with their distinctive surfaces. Some feature a metallic sheen, while others blend seamlessly into any bathroom with their matte finish.

Bathtubs

Appealing bathtub designs.
Turn your bathroom into a wellness oasis.

Free-standing bathtubs have been popular for many years, but they require a lot of space. If you do not have much space, you will be happy to hear that DUSCHOLUX also offers attractive bathtub shapes with wall connections in all sizes – including small modern bathtubs. All tubs are manufactured using body-friendly sanitary acrylic or the innovative material DUSCHOLUX Bestone. These materials are warm to the touch, have very good thermal insulation characteristics and a long service life.

Bathtubs

Step-in Pure bath solution

An surprising different approach to showering and bathing.

Step-in Pure is a combination of rectangular bathtub and shower solution. A flexible door insert turns the easily accessible and spacious shower into a securely sealed bath in an instant. A particular feature is the additional design flexibility afforded by the PanElle tub surrounds. Design flexibility with patterns and colours and the combination options with two different-coloured door inserts provide an individual touch in the bathroom.

Features

- Bathtub and shower solution as a single unit
- Apron in various colours
- Removable door insert made of acrylic
- Convenient access to the shower area
- Secure locking system with two drains
- Left- and right-handed version, useful volume 170-230 litres
- Suitable for use with various DUSCHOLUX shower walls

01
The Step-in Pure door inserts are available in Translucent White and Anthracite.

02
Step-in Pure can be combined with a variety of DUSCHOLUX shower wall – as sliding, swinging or folding variants.

On our website, you can quickly and easily dive into the world of DUSCHOLUX products. The simplified navigation with a practical search function helps you to find the information you need quickly and easily. Downloads and specific content for your individual needs help you with planning – in trade and crafts. Whether you're an architect, planner or private customer, with www.duscholux.com you're on the right side.

DUSCHOLUX ONLINE

Configurator

Here’s how planning can be fun and make sense.

With its intuitive user interface, our configurator makes it easy and even fun to find your personal dream solution for the bathroom. It’s simple: you enter your structural requirements, specify your preferences for the shower or PanElle wall covering, and the tool instantly generates a perfectly matching solution – realistically visualized for the selected model. Planning your shower couldn’t be more straightforward or more visual.

01

Surprising effects with our PanElle wall panelling: experience how colours can change the effect of a room and customise your shower area.

02

Variable and realistic down to the last detail: the configurator also takes into account whether your shower wall should stand on a shower floor or a tiled floor.

Our configurator undergoes continuous development for your benefit. You now also have the option of uploading your own images. The required section can be selected intuitively during this process and viewed as PanElle wall panelling in the preview. You then have the option of downloading the file as a high-resolution JPG or PDF.

Product registration.

Register your product and reap the rewards.

Each of our DUSCHOLUX products is assigned a unique guarantee number. You can find this under the DUSCHOLUX clip on your product in blue or black type. Use the guarantee number to register your product on our website and receive a small welcome gift in the post. By registering your product, you will also be able to order any spare parts you require at a later time. And with your guarantee number, you will find matching products on the DUSCHOLUX online shop.

01

A guarantee clip is affixed to every DUSCHOLUX Shower wall. You will find the individual guarantee number of your product under the cap.

Der DUSCHOLUX-Webshop.

Order comfortably from home – in our online shop, you'll find not only cleaning products but also accessories for wet areas. We also offer spare parts and provide our customers with helpful dimensioned drawings.
